I have cans but not a lot of fresh food, so I really need to go into town if I still want bread, milk, eggs, cheese and... I look around me. The energy density of chemical fuels is surpassed only by nuclear energy stores; however, nuclear energy comes with significant risks and expense, in addition to the difficulty associated with converting nuclear energy into useful work, all of which limit the use of this type of power. Which means I have to have something interesting to say.

Then follow the comfortable words that the Christ, the Logos, is the Lamp, the  
The Pittsburgh Current is published twice monthly beginning August. The opinions contained in columns and letters to the editors represent the views of the author and do not necessarily reflect the opinions of Pittsburgh Current
